Venue : St Mary's Church Centre, Moss Lane, Sale Cheshire M33 6GD

With many years' experience as a professional Landscape and Natural History photographer based in the Peak District National Park, **Alex Hyde**, is, also a specialist in Macro photography, and is perfectly placed to give us all the benefit of his experience in this talk, based on his knowledge as leader/organiser/tutor of photographic expeditions and workshops.

The Peak District combines a stunning illustration of the way in which light, in all its forms, can inject mood and drama into the Peak District landscape, along with a graphic encounter with the Wildlife that inhabits this natural environment including the fascinating hidden world of Macro Photography.

He is the true master of photographing genuinely wild creatures and their natural settings in a spectacular way, and will be enriching his talk by giving us an insight into the extraordinary techniques he uses to achieve his images.
